 INNOVÁCIÓS ÉS TECHNOLÓGIAI MINISZTERIUM	AIR OPERATOR CERTIFICATE APPLICATION FORM		
	INITIAL ISSUE / VARIATION OF AN AIR OPERATOR CERTIFICATE (AOC)		
	Revision: 2	Issued: 01.06.2018.	Page: 14 / 15

Notes applicable to the application for initial issue/variation of an AOC (Including the Part M Subpart G Approval).

1. This application, if for an initial issue of an **AOC**, must be submitted at least 90 days prior to the date of the intended start of operations. The Operations Manual must be submitted at least 60 days before the intended start of operations, together with a detailed Statement of Compliance and the proposed schedule of events for grant of an AOC.
2. The operator's certificate shall remain valid subject to:
 - The operator remaining in compliance with the relevant requirements of Regulation (EU) No 2018/1139 and its Implementing Rules, taking into account the provisions related to the handling of findings as specified under ORO.GEN.150;
 - MIT-CAA being granted access to the operator as defined in ORO.GEN.140 to determine continued compliance with the relevant requirements of Regulation (EU) No 2018/1139 and its Implementing Rules; and
 - The certificate not being surrendered or revoked.

Upon revocation or surrender the certificate shall be returned to MIT-CAA without delay.

3. The application for a variation of an **AOC** must be submitted at least **30 days** before the date of intended changes. In the case of a planned change of a nominated person, a variation shall be filed at least **10 days** before the date of proposed change. All variations must be supported with the relevant Operations Manual (or amendments to) and other documents (Maintenance Support Contract, Continuing Airworthiness Management Exposition, Aircraft Maintenance Programme, Aircraft Technical Log System, etc.) pertaining to the variation.
4. The interval between application and grant or variation of a certificate will depend primarily upon matters within the control of the operator and no undertaking can be given that MIT-CAA will be in a position to reach a decision within a particular period. Nevertheless, if after a period of 12 months the application process has not been substantially progressed, MIT-CAA may refuse the application.
5. After initial study of the application and attachments, MIT-CAA will schedule a formal application meeting to discuss the proposed operation.

NOTES IN RELATION TO PART I, SECTION A OF THIS APPLICATION:

6. A covering letter must be submitted with the AOC variation outlining any changes which are being applied for and if the application is being submitted without all supporting documentation, the letter should include the expected dates of submission for each of the missing documents.
7. Name of company should be the registered name of the company (the legal entity) seeking an AOC, not the name of intended aircraft operation.

 INNOVÁCIÓS ÉS TECHNOLÓGIAI MINISZTERIUM	AIR OPERATOR CERTIFICATE APPLICATION FORM		
	INITIAL ISSUE / VARIATION OF AN AIR OPERATOR CERTIFICATE (AOC)		
	Revision: 2	Issued: 01.06.2018.	Page: 15 / 15

8. Address shall be the operating address of the company to which all correspondence should be sent and shall be registered on all legal documents.
9. For applications to vary the AOC, the e-mail address, telephone number and fax number must match what is on your existing AOC unless you are applying to vary these details. Also, the “contact details at which operational management can be contacted without undue delay” should match the details on your existing operations specifications unless you are amending these.
10. The contact mobile number and person in this section should be the person with whom MIT-CAA will communicate regarding this application.

NOTES IN RELATION TO PART I, SECTION C OF THIS APPLICATION:

11. Nominated Persons CV's should be attached, or sent separately. To Nominate the Continuing Airworthiness Manager, EASA form 4 should also be submitted. All CV's should be accompanied by copies of relevant licences, endorsements and certificates.

NOTES IN RELATION TO PART II, SECTION C OF THIS APPLICATION:

12. Area of operations should be that which the company intends to operate within, and not the area(s) that ***might***, subsequently, be operated within. It is well to note that the company's operations manual must include all information relevant to its area of operation as stated in the AOC.
